

# ADVANCE THE MISSION

## THE LEUKEMIA & LYMPHOMA SOCIETY

Today, The Leukemia & Lymphoma Society (LLS) is the world's largest voluntary health agency dedicated to finding cures for leukemia, lymphoma, myeloma and all other blood cancers.

Because of the continued support of you, our partners and sponsors, in fiscal year 2015 we were able to:

- Invest \$67.2 million in research
- Support 277 research projects (and 24 Therapy Acceleration Program partnerships) in the United States, Canada and 7 other countries
- Provide co-pay assistance to patients
- Sponsor scientific conferences around the country
- Produce educational materials and videos
- Run dozens of Family Support Groups nationwide

## TEAM IN TRAINING

Team In Training (TNT) is the flagship fundraising program for The Leukemia & Lymphoma Society. It's also the original sports training program for charity, and the only one dedicated to creating a world without blood cancers. TNT teammates fund groundbreaking discoveries in research, and inspire personal discovery through training and community.

### THE INSPIRATION

Teammates have the unique opportunity to be matched with a blood cancer survivor whose journey will inspire them to reach goals they never thought possible.

### THE TRAINING

Certified coaches, either online or in-person, provide a comprehensive training program with a personalized training calendar and clinics on nutrition, injury prevention and more.

### THE COMMUNITY

TNT creates an environment where teammates develop and strengthen relationships that will last a lifetime while fundraising and training as a team with friends, family and co-workers.
